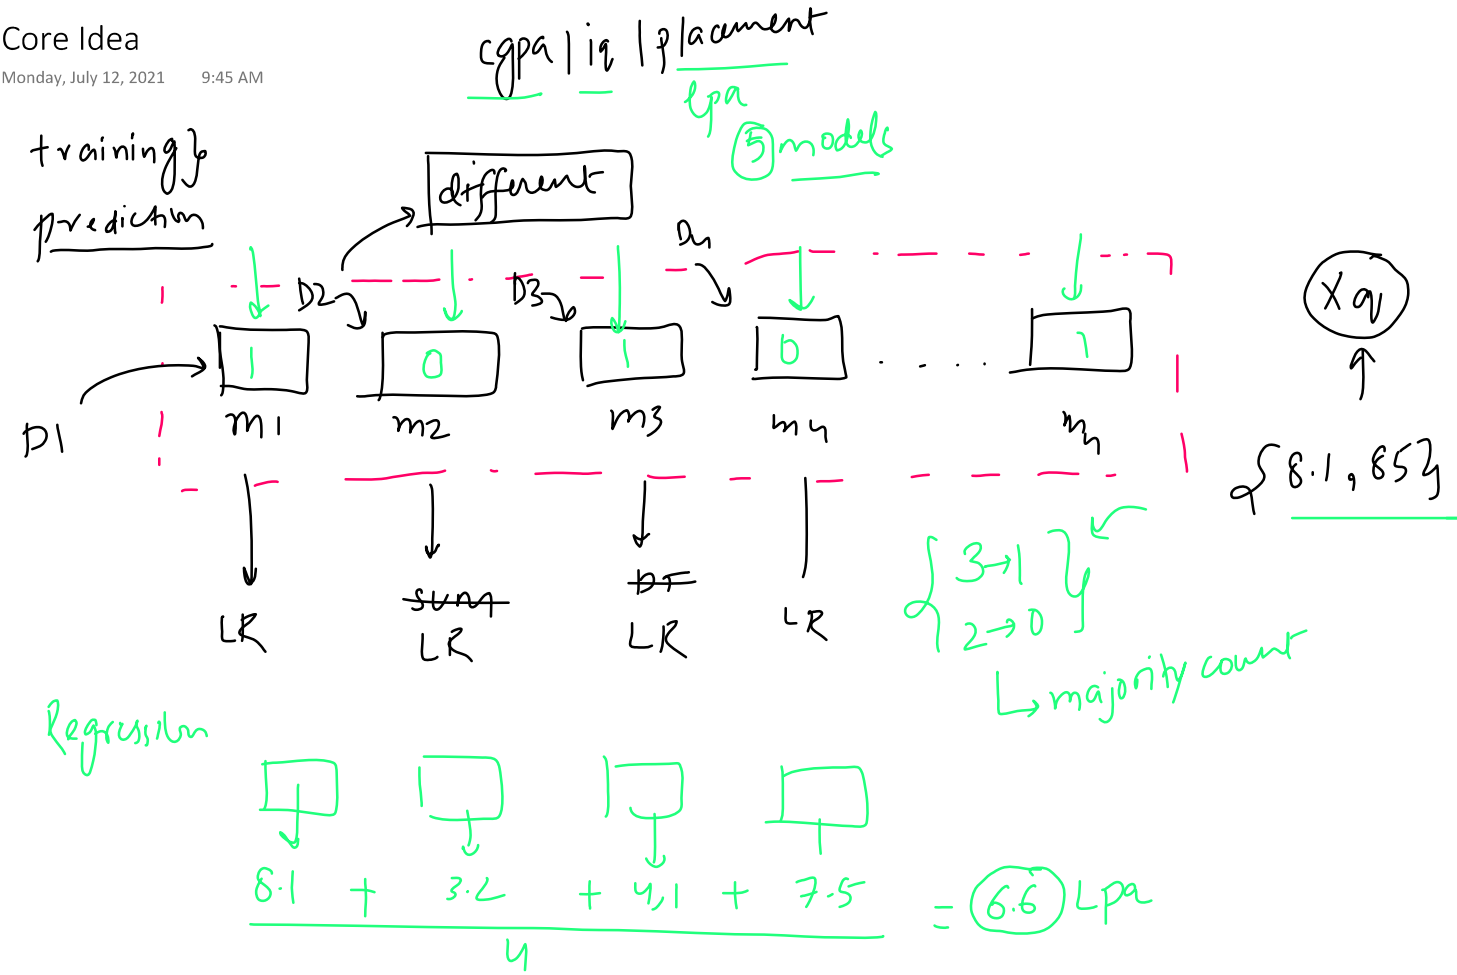
Wisdom of the Crowd

Monday, July 12, 2021 9:56 AM

Core Idea

Monday, July 12, 2021 9:45 AM

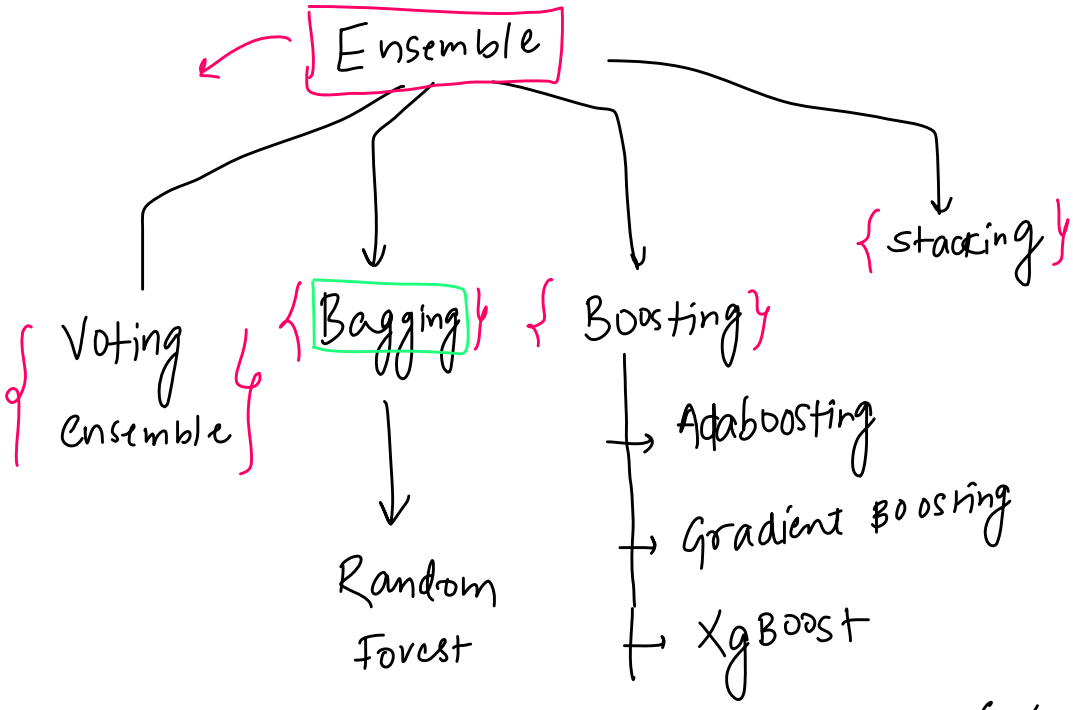


Regression

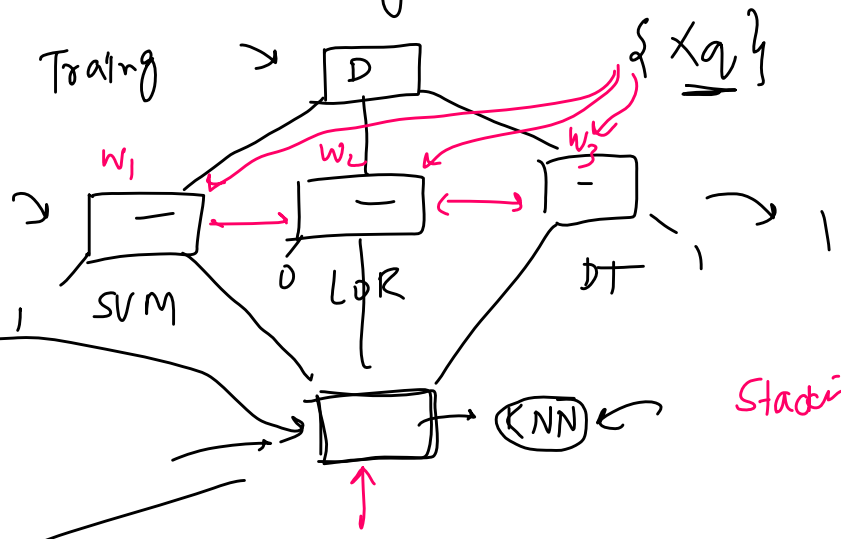
$$\frac{8.1 + 3.2 + 4.1 + 7.5}{4} = 6.6 \text{ Lpa}$$

Type of Ensemble Learning

Monday, July 12, 2021 9:45 AM

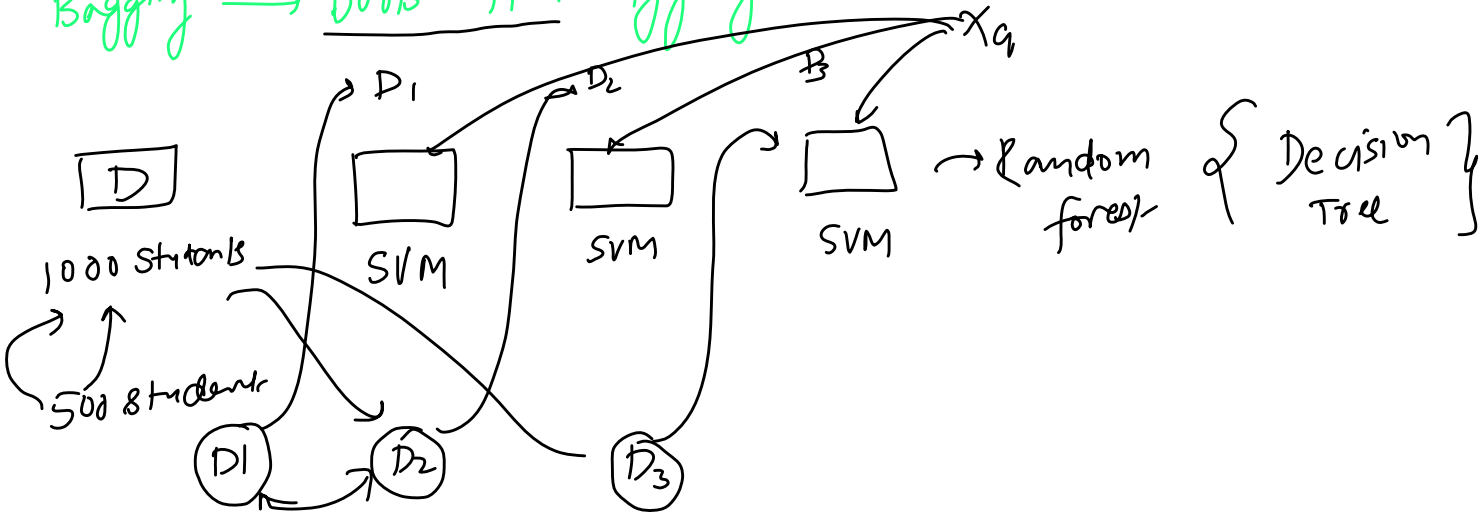


→ Base models diff. algo



SVM	LOR	DT	R
1	0	1	1
0	0	1	1

Bagging → Bootstrapped Aggregation



boosting your data

Benefits

Monday, July 12, 2021 9:45 AM

1) Improvement in performance

2) Bias Variance

↳ Low Bias + Low Variance

Low Bias High Variance → DT → Ensem

Low Bias → LV

High bias Low Varian → Low bias, LV

3) Robustness

When to use?

Monday, July 12, 2021 9:46 AM

Always
